

## ***RAMM Gallery Challenges***

**All the items on display in RAMM are thought to be valuable for the information they give about other people, places and times.**

### **The Dragon's Treasure**

**Stand in front of a case of your choice**

**You have seen the treasure in an underground cave but now you need to tell your friends what you have found and time is short!**

**Using the timer give yourself 3 minutes (or more) to study one case carefully and memorise as many objects as possible – try to read the labels that tell you what they are.**

**Turn away from the cabinet and tell your friends in 1 minute what you have seen. They should keep a count of how many objects you remember.**

**Now it is their turn. Can they do as well as you?**
