

## Around the world in 30 questions Quiz – Instructions

- Join the Zoom meeting.
- In a separate web browser type in “Kahoot.it” or <https://kahoot.it/>. We recommend using a phone or tablet for this. Once you are on this page, your screen should look as follows:

- You will see that a unique “Game PIN” is required to participate in the quiz; please type in the pin that we provide you via Zoom. This will be done live on the evening.
- You will then be asked to create a username.
- You will then be placed in the waiting area until the quiz begins. Don’t worry if anything goes wrong; your quiz hosts via Zoom are there to help, and will clearly announce when the quiz is about to begin etc.
- We will ask the winner of the quiz to take a screen shot of the winning announcement on Kahoot and email this through to us to confirm the winner on the evening.

### Please note:

- You will need to view both the Zoom meeting and the Kahoot! page in order to participate in the quiz.
- We recommend viewing Zoom on a laptop, computer, or tablet, while playing the Kahoot! on a tablet or mobile device. Alternatively, you can split your laptop or computer screen so that you can view Zoom on one half of the screen, and play the Kahoot! on the other half.
